DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art discloses wind energy system having a rotor, adjustable blades, a generator connected to the rotor, a control system and the control system regulating the rotor rpm by adjusting the blade angles. However, the prior art fails to disclose, in combination with the invention that the control system decreases the rotor rpm and the power by regulating the power output to a value or a rated power of the system at wind speeds below a predetermined limit and wherein the control system regulates the power output beginning at the rated power constantly and decreasingly down to the shutoff speed when the wind speed increases above the predetermined limit speed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
